

Friends & Friendships Activities

Face Time

In Face Time or other video site, kids try to identify moods based on facial expressions. By either cutting faces out of magazines or using pictures printed out, groups need to identify what they think that person is feeling and put the faces into piles based on different emotions. The more subtle the expression, the more interesting the conversation.

KS1 song considering qualities of friendship -

Create a friendship bracelet for your friends. Consider their favourite colours or patterns. You won't be able to share them just yet so wear them yourself to help keep your friendship connections feeling close

<https://www.hobbycraft.co.uk/ideas/kids/how-to-make-friendship-bracelets>

Write a round robin poem or song with your friend/s

Complete a starting line such as – Friends to me are.....

After you've completed a couple of lines text, email, message to your friend/s asking them to complete some more before sharing it back with you
